GellifiQue® PROFESSIONAL

ABOUT US

Gellifique® Professional established in 2015 with its HQ situated in the Scottish capital of Edinburgh specialises in a wide range of nail enhancement products formulated for the professional nail industry.

In 2018 our entire line of products was redesigned and reformulated to what you see today online and in our showroom.

Our Signature HEMA free line of Gel Polish products is richly pigmented, has low odour and is practically tack free to ensure minimum if any unwanted product transfer to the skin.

Furthermore, we offer a wide range of HEMA Free Nail Enhancement and Nail Art products as well as other essentials.

We supply our products to nail schools and educators internationally as well as fully qualified nail technicians and those in training.

GELLIFIQUE® BENEFITS

Certified products

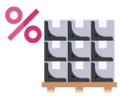
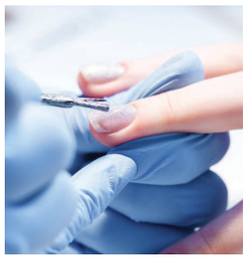
Products with direct contact to skin are dermatologically tested



Wholesale discount



Educator's discounts

Affiliates programme (Educators only)

Gel polish is protected from UV with tinted inner glass

WHY CHOOSE GELLIFIQUE® PROFESSIONAL

ENHANCED PERFORMANCE

Our products offers fantastic wearability of 3 + weeks on natural nails and with application of our strengthening products such as Ultra Seal Gel the longevity of a Gellifique® Professional gel manicure or nail enhancement can be prolonged to 4+ weeks wear without chipping or lifting.

SUPERIOR GLOSS AND PIGMENT

Our range of Top and Base Coats form a strong and protective layer over the gel polish manicure, ensuring that lighter colours do not dull and Matte Top Coats do not loose their velvet smooth finish. The rich pigments added to our colours vary in each batch, to deliver a splendid colour brilliance, hard wear and gloss. Each enamel, pastel and glitter colour is prepared in a small batch and designed to have the perfect thickness, texture and curability for that specific shade. The product batch code can be found on the brush cap or the base of a Gellifique® Professional product.

OUR FORMULA

Due to a research study published by the British Association of Dermatologists on August 9 2018 a HEMA free product line was created and our Signature Gel Polish line was introduced. Whenever possible we continue to enhance our products and our latest range of Camouflage Hard Builder Gel is formulated without ingredients marked with a CLP classification of being skin sensitising.

ONLINE RESOURCES

A Gellifique® Professional Safety Brochure is available to download on our website which has been created to assist our new and existing customers to make informed decision when purchasing our products as well as provide guidance on how to read and interpret a Cosmetic Safety Data Sheet and the importance of a CLP classification system designed by the United Nations. A Gellifique ™ Allergy Incident Report has also been created and is available to download on our website. We believe that as members of the Professional Beauty Industry it is of vital importance to identify any new allergy patterns to acrylates or any other chemicals present in products used in salons and report our findings via the CPNP Portal if necessary to keep our industry and those within it safe.

AFFILIATES

At Gellifique® Professional we support the Professional Beauty Industry and it' Educators by offering Educator Discounts as well as participation in the Gellifique® Affiliate Programme. These benefits are awarded strictly to accredited educators and schools.

TOP AND BASE COAT

SIGNATURE HEMA FREE RANGE CPNP REG NO. VARIOUS

Seven variations of top and base coats in a HEMA free formulation are available to suite every client's requirements and in - salon nail service.

MICROCRYSTAL TOP COAT

A staple basic in fine texture and tack free formula with long lasting gloss. Tack Free.

MICROCRYSTAL ARMOUR TOP COAT

The same great hold and HEMA free formulation as the original Microcrystal Top Coat in a slightly thicker texture. Thus, providing more resilience to the natural nail and fantastic chip free, glossy wear. Suited for heavier handed clients. Tack free.

RUBBER TOP COAT

This thick textured top coat is an ideal product for sealing chunky glitter, gemstones, foils, pigments and other nail art work. Tack free.

VELVET MATTE TOP COAT

A streak-free velvet-smooth matte finish that lasts without loosing its effect. Lower heat formula. Tack free.

MICROCRYSTAL BASE COAT

Provides a perfect base and hold for all other product application. Does not run and is easy to apply.

RUBBER BASE COAT MEDIUM/ THICK TEXTURES

A flexible "elasticated" and self-levelling base coat which corrects uneven or damaged nail surface. This product is a great alternative to Apex Gel (soak - off builder gel in a bottle system) due to its fantastic formulation suitable even for clients with skin sensitivities.

None of the ingredients in the Rubber Base formula are categorised as "skin sensitising" (no CLP markings).

SIGNATURE GEL POLISH

SIGNATURE HEMA FREE RANGE CPNP REG NO. 3220906

Gellifique® Professional offers over 250 HEMA Free Gel Polish Colours ranging from semi clear neutral shades to staple classics, pastels, as well as encapsulated and holographic glitter. Trending new collections are introduced 4 times per year.

EXTRAS

ACID FREE BONDER / PRIMER CPNP REG NO. 3302062

A gentle acid free bonder / primer provides a host of benefits including improved product adhesion. Not suitable for customers with skin sensitivities.

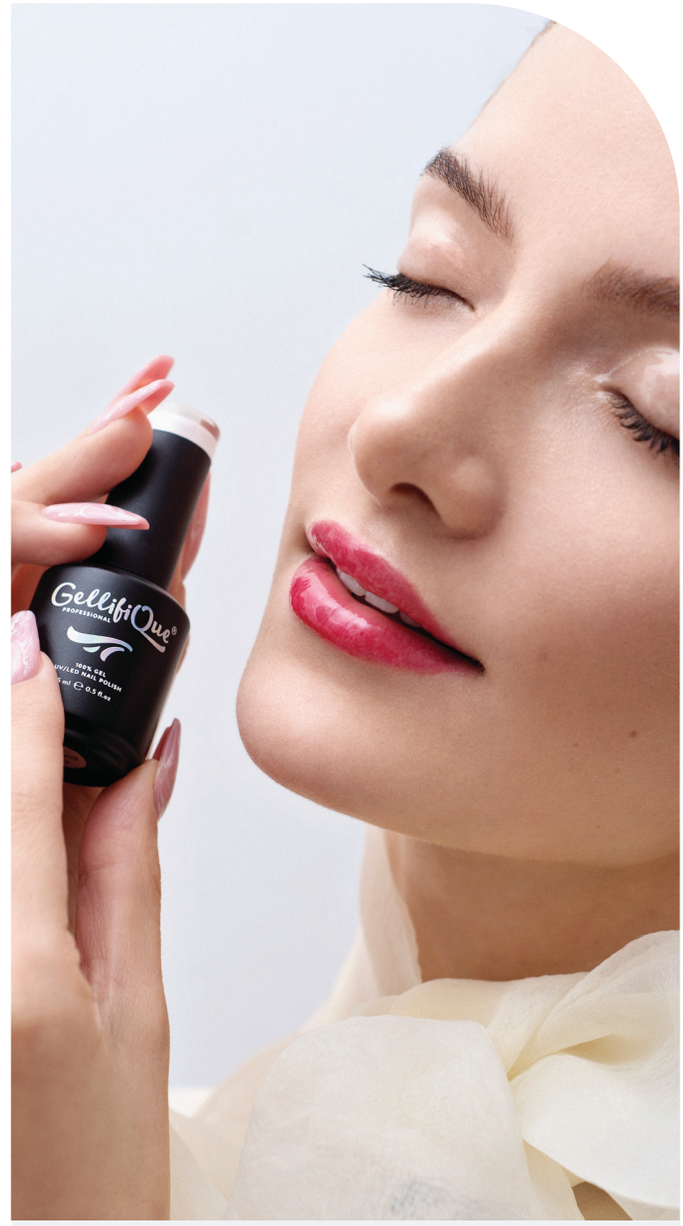
SIGNATURE HEMA FREE RANGE

ULTRA SEAL GEL CPNP REG NO. 3220906

A strengthening product designed to add more hold to your gel polish service without the need for product enhancement products such as soak off or hard builder gel. The Ultra Seal Gel is applied after the gel polish colour and before the top coat.

BLOOMING GEL CPNP REG NO. 3220904

A nail art product which enables you to effortlessly create nail designs such as marble, natural stone, watercolour, floral print, tie-dye, gradients and more.



TRANSFER GEL CPNP REG NO. 3226385

A nail art product which creates a super sticky layer for perfect transfer of nail art foils.

PRECISION QUICK NAIL TIPS

Full cover nail tips moulded out of ultra thin premium grade polymer. Superior clarity and flexibility provides strength and durability exactly where it's needed. Available in a range of shapes and lengths.

CREATIVE GEL POT

SIGNATURE HEMA FREE RANGE CPNP REG NO. 3142761

A range of 100% gel paint products for nail art. Due to superior formula and high viscosity these products can be easily used for complex freehand designs as well as simple french manicure smile lines.

NAIL ENHANCEMENTS

SIGNATURE HEMA FREE RANGE

APEX GEL – SOAK OFF BUILDER GEL

APEX GEL CPNP REG NO. 3237906

A thick texture, full capacity soak off builder gel formula ideal for nail shape correction (natural nail overlays) and other types of nail enhancements. Allows a maximum nail extension of up to 1.2 cm.

APEX GEL 2 IN 1 CPNP REG NO. 3142755

This two in one product in a thin to medium texture has properties of a soak off builder gel and a rubber base coat allowing the natural nail to flex without the product cracking or chipping. A maximum nail extension of 0.5 cm can be created with

HARD BUILDER GEL

SIGNATURE HEMA FREE RANGE CPNP REG NO. 3388561

Our top selling hard builder gel product in a hypoallergenic formula*. Formulated free of HEMA and other skin sensitising ingredients it also boasts a range of other benefits.
Low odour , medium viscosity and self levelling this product is very comfortable to work with even for a beginner.
*No CLP Classification in the camouflage colours.

PREMIUM / DIMOND SCULPTING GEL CPNP REG NO. 3325621

This extra strength hard builder gel created in Holland is “the must - have” product for creative nail shapes and extra long nail enhancements. Jelly texture, tough wear and scratch proof finish.

ACRYLIC GEL

SIGNATURE HEMA FREE RANGE CPNP REG NO. 3142756

A perfect fusion of acrylic and gel in a paste like texture. Virtually odourless and unlike similar products on the market has very low exothermic reaction. Significantly less dust during filling in comparison to acrylics.

ACRYLICS

Our bonder, acrylic liquid and core powders have been designed in Holland to offer the professional nail technician a superior quality system with maximum adhesion. Perfect for those who may suffer issues with lifting.

PREMIUM ACRYLIC LIQUID CPNP REG NO. 3325615

Our premium acrylic monomer is low odour and does not contain MMA. We are looking to add a HEMA free Monomer and a Monomer with Primer to the range soon.
